

SMARTBoard Student Survey 2010

Note: Data collection for this survey will continue until 6/5/2010.

Expanded Results

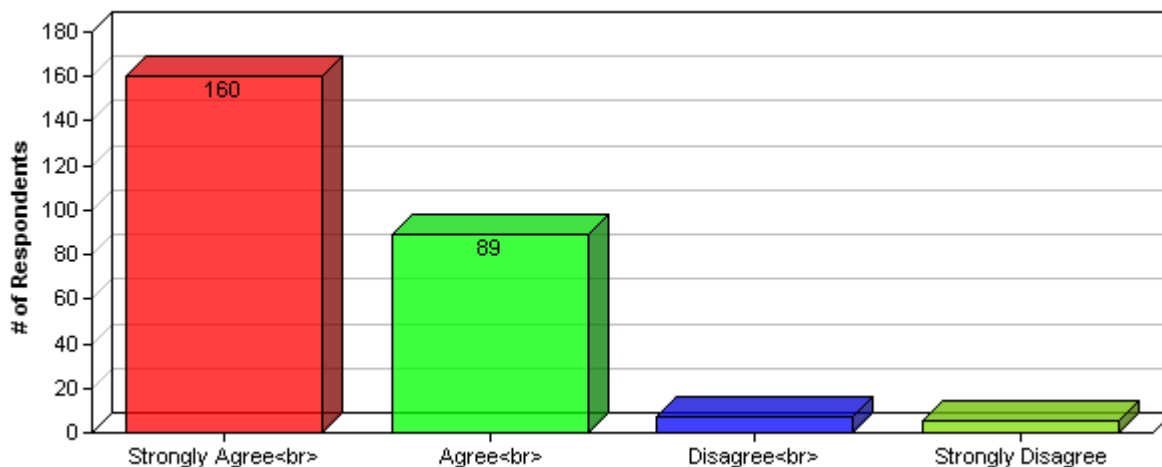

of respondents 262

Motivation

Question 1:

I enjoy having a SMART Board in my classroom.

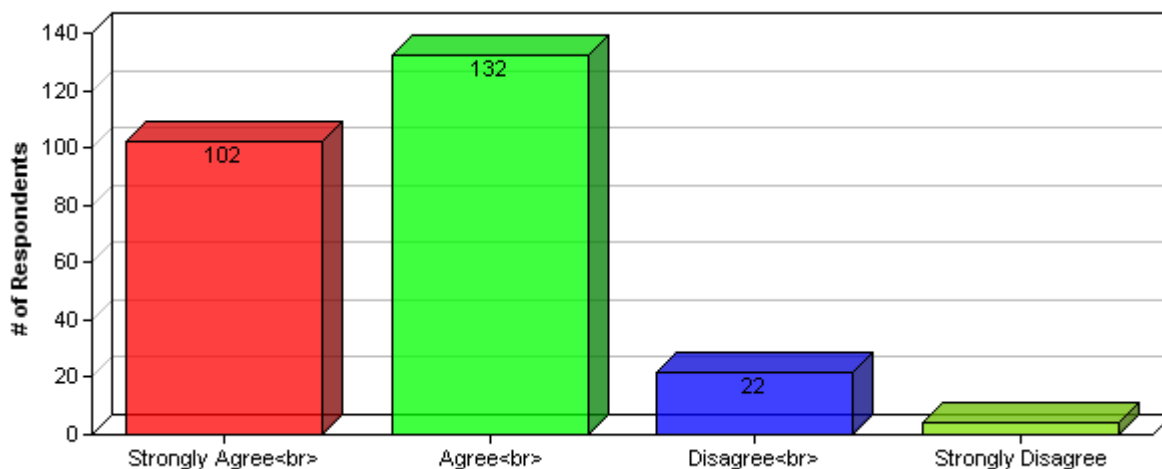

1. Strongly Agree	2. Agree	3. Disagree	4. Strongly Disagree	Mean	Std Dev
160 61.3%	89 34.1%	7 2.7%	5 1.9%	1.5	0.65

Question 2:

Lessons on the SMART Board that are interactive hold my attention.

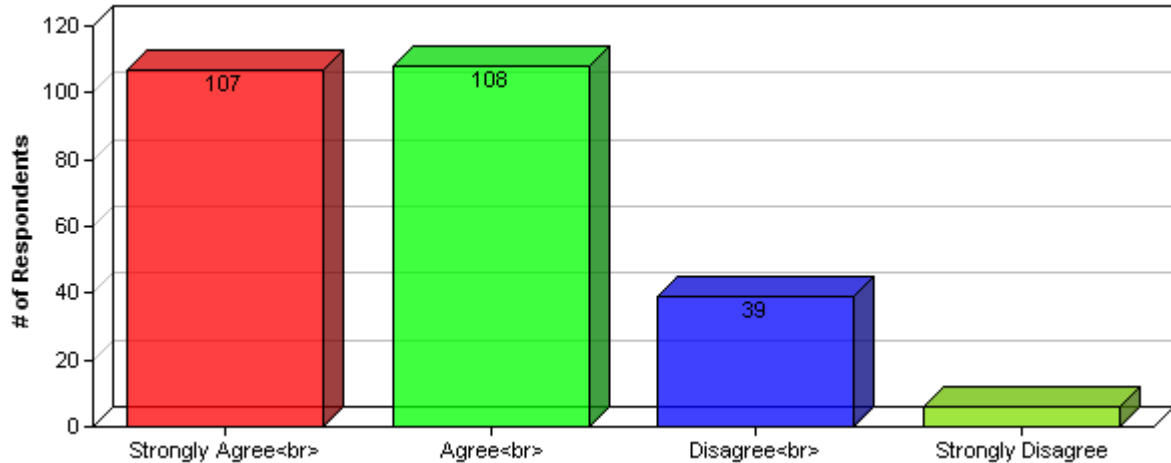

1. Strongly Agree	2. Agree	3. Disagree	4. Strongly Disagree	Mean	Std Dev
102 39.2%	132 50.8%	22 8.5%	4 1.5%	1.7	0.68

Question 3:

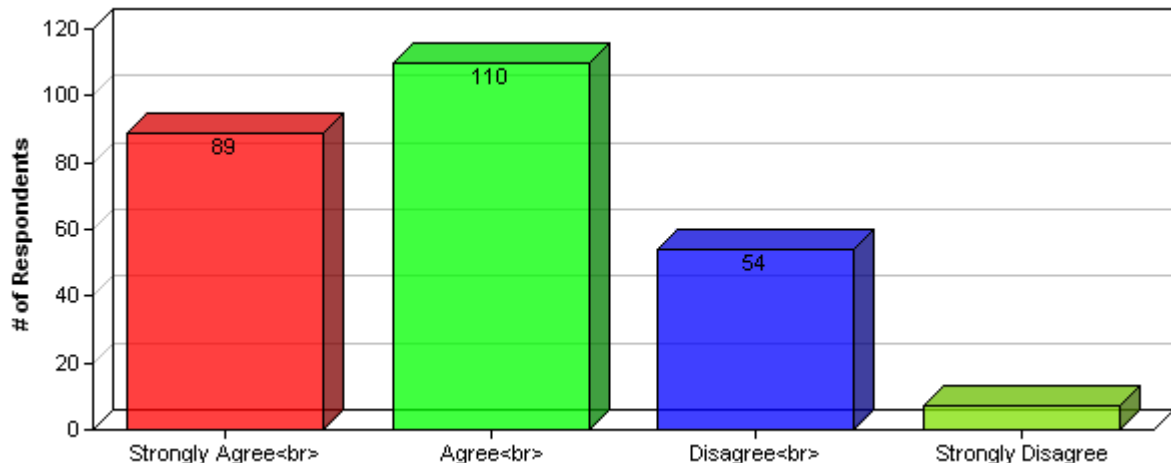

I believe all classrooms should have a SMART Board.

1. Strongly Agree	2. Agree	3. Disagree	4. Strongly Disagree	Mean	Std Dev
107 41.2%	108 41.5%	39 15%	6 2.3%	1.8	0.78

**Question 4:**

I am more willing to discuss and participate in lessons that include the SMART Board.

1. Strongly Agree	2. Agree	3. Disagree	4. Strongly Disagree	Mean	Std Dev
89 34.2%	110 42.3%	54 20.8%	7 2.7%	1.9	0.81

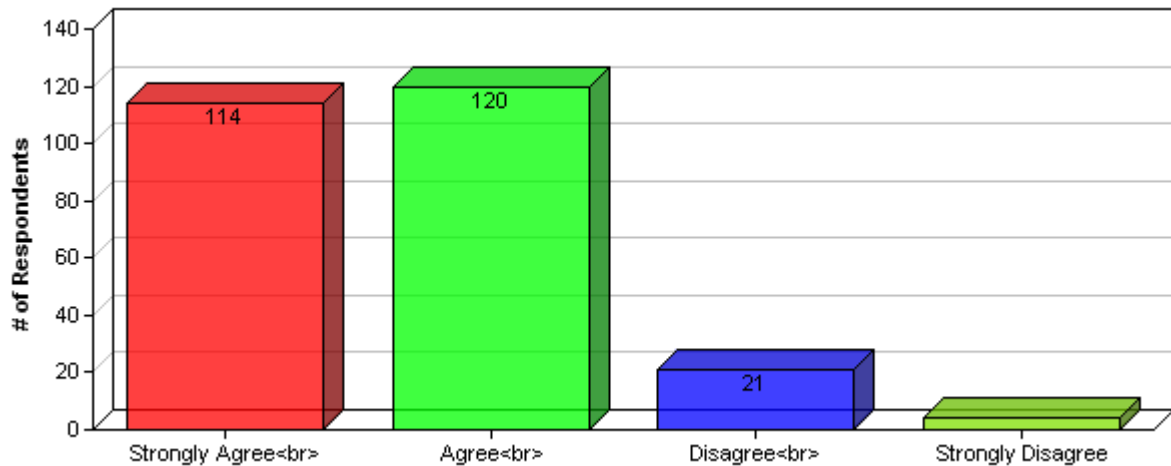

Learning

Question 5:

The SMART Board makes learning more fun.

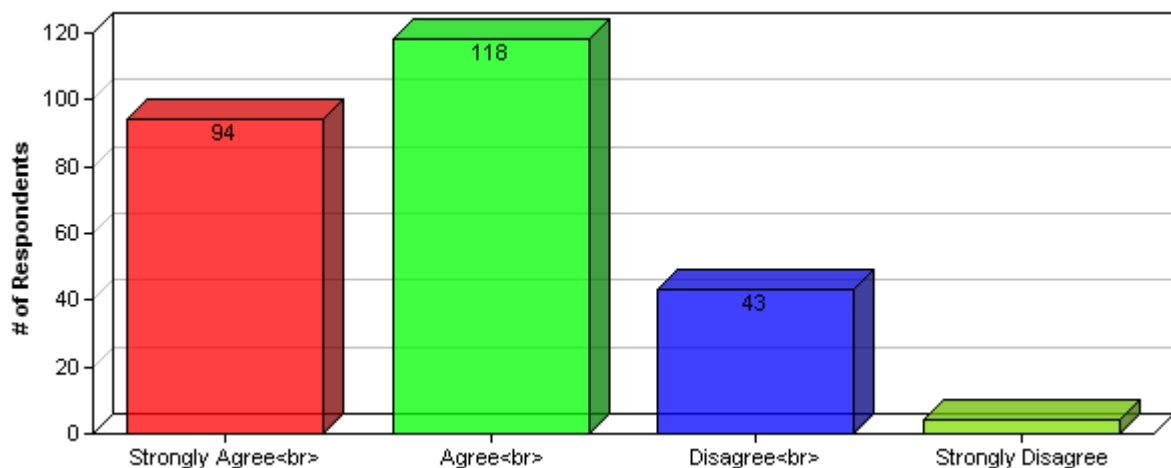

1. Strongly Agree	2. Agree	3. Disagree	4. Strongly Disagree	Mean	Std Dev
114 44%	120 46.3%	21 8.1%	4 1.5%	1.7	0.69

Question 6:

I find it easier to learn when I see an example on the SMART Board first.

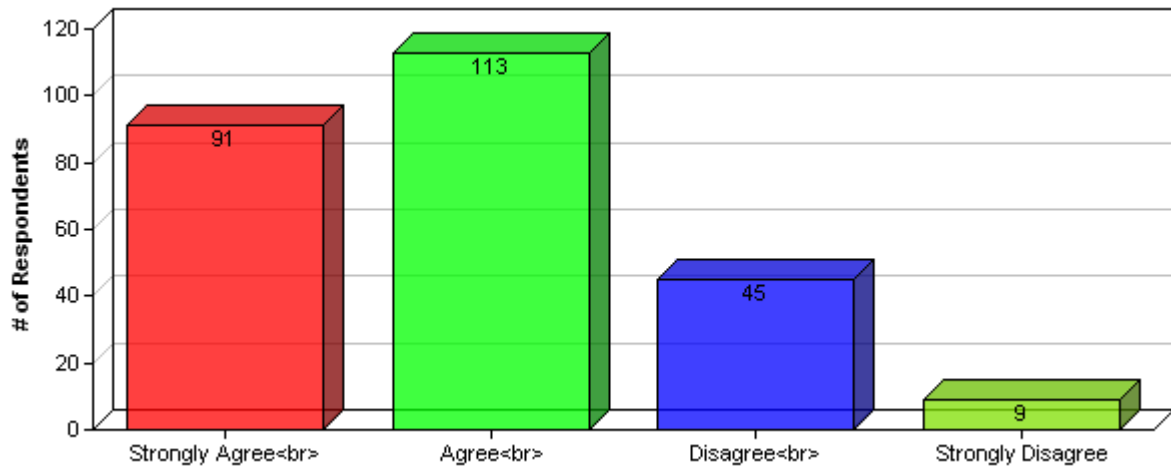

1. Strongly Agree	2. Agree	3. Disagree	4. Strongly Disagree	Mean	Std Dev
94 36.3%	118 45.6%	43 16.6%	4 1.5%	1.8	0.75

Question 7:

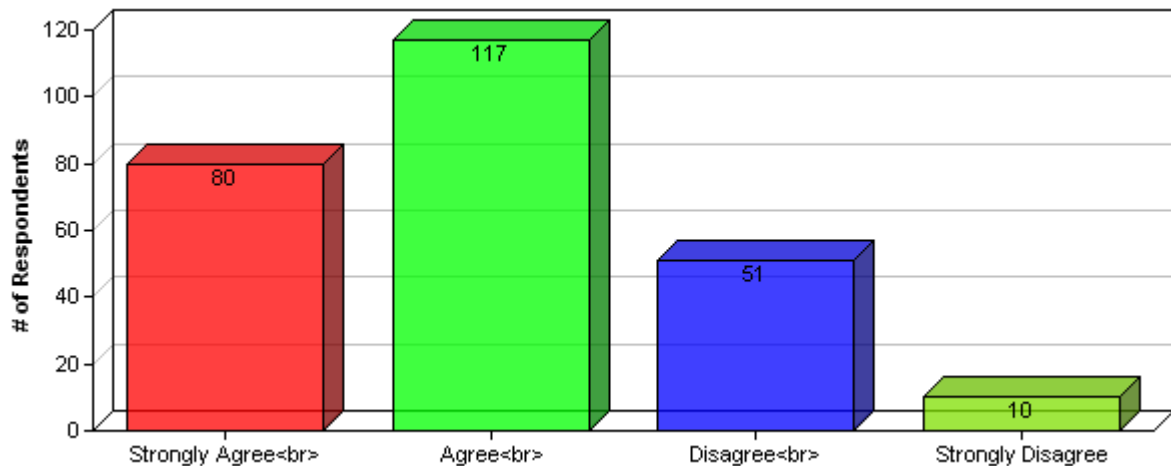

I find it easier to learn when I can touch and move things on the SMART Board during a lesson.

1. Strongly Agree	2. Agree	3. Disagree	4. Strongly Disagree	Mean	Std Dev
91 35.3%	113 43.8%	45 17.4%	9 3.5%	1.9	0.81

**Question 8:**

I focus better during class when the SMART Board is used.

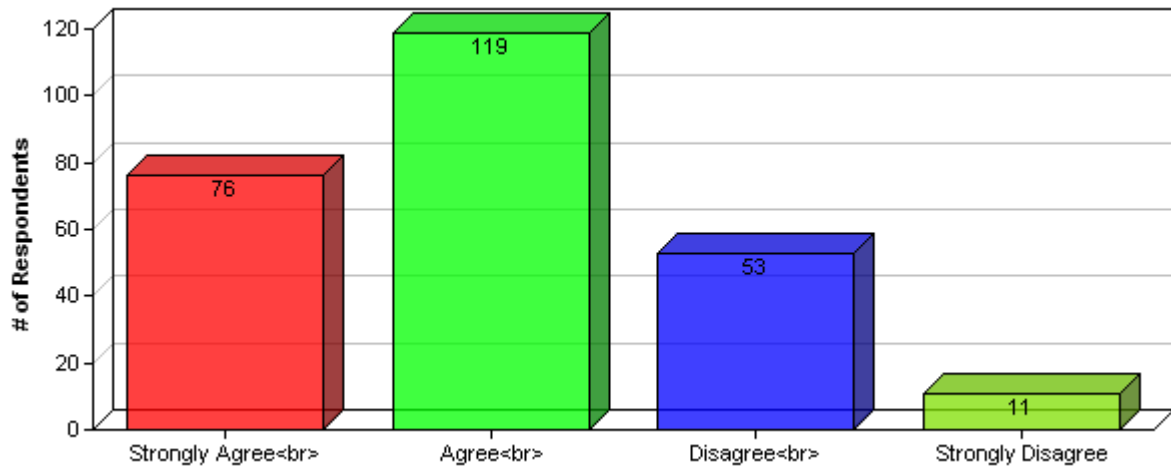

1. Strongly Agree	2. Agree	3. Disagree	4. Strongly Disagree	Mean	Std Dev
80 31%	117 45.3%	51 19.8%	10 3.9%	2	0.81

Question 9:

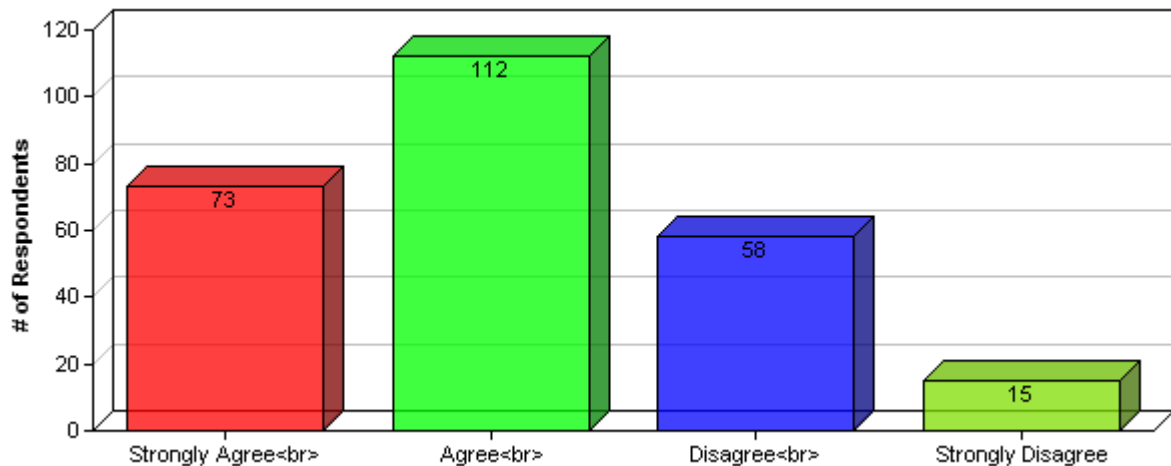

I have remembered and better understood lessons, units or themes that have been taught with the SMART Board.

1. Strongly Agree	2. Agree	3. Disagree	4. Strongly Disagree	Mean	Std Dev
76 29.3%	119 45.9%	53 20.5%	11 4.2%	2	0.82

**Question 10:**

SMART Response quizzes helped me prepare for exams.

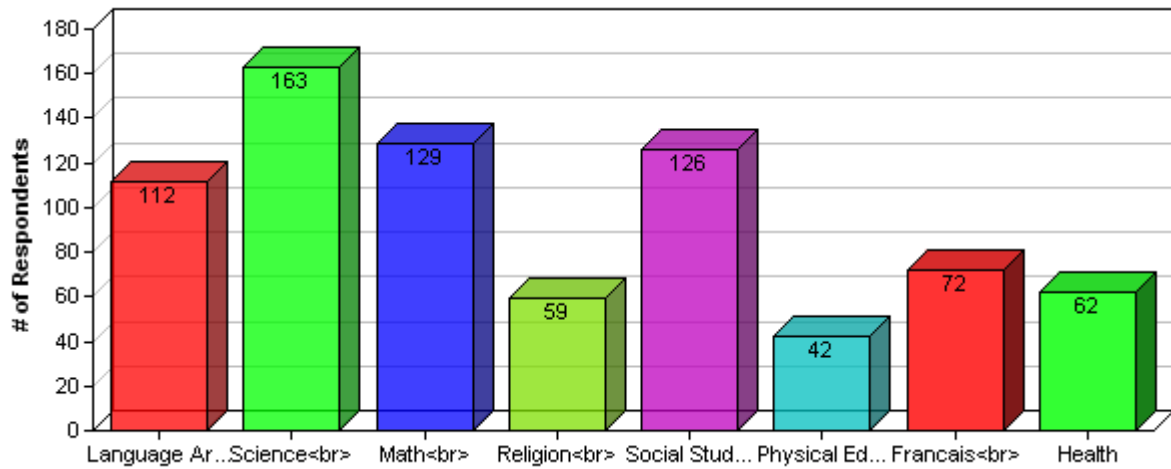

1. Strongly Agree	2. Agree	3. Disagree	4. Strongly Disagree	Mean	Std Dev
73 28.3%	112 43.4%	58 22.5%	15 5.8%	2.1	0.86

Question 11:

Please check ALL subjects below that you find SMART Board lessons most helpful for your learning.

1. Language Arts	2. Science	3. Math	4. Religion	5. Social Studies	6. Physical Education	7. Francais	8. Health	Mean	Std Dev
112 14.6%	163 21.3%	129 16.9%	59 7.7%	126 16.5%	42 5.5%	72 9.4%	62 8.1%	0	0

Question 12:

Are there other subjects that are not included in the list above where you find SMART Board lessons most helpful? Please List:

- All respondents
 - Computer Science\r\nGraphic Arts\r\nComputer Production Technologies
 - n/a
 - no
 - every lesson in the world :)
 - Choir, Vocal Jazz
 - every subject possible!
 - gym
 - gym
 - Spanish.
 - no
 - Espanol (Spanish)
 - spanish\r\npsychology\r\n
 - spanish 10
 - Spanish 10
 - Spanish 10
 - Spanish
 - spanish
 - spanish, drama, history
 - Spanish
 - history\r\nspanish
 - ninja class
 - bio 20 and spanish
 - Spanish
 - Spanish and\r\nALL subjects!!!
 - Spanish.
 - Spanish
 - Spanish
 - Spanish
 - Spanish\r\nHistory
 - The other subject that are not included is socialstudies and health.
 - I hope at social studies and health can have a smart board. It`s will be great for me and for all the students.
 - yes the subjects are social studies and health.
 - yes the subject ae socialies and health.
 - reading
 - reading
 - health and social studies
 - I would like the smartboard in my other classes but those teachers dont have one
 - I hope soon will have smartboard in social studies and health. It`s will be great.
 - fun
 - Art,
 - gym\r\n
 - there should be a few more things fir math i sometimes feel board.
 - math
 - no
 - french
 - you can actully look at things up close
 - there is no subjects that were listed that i find most helpful
 - reading ,outdoor games,

Question 12: Continued

- no
- spelling
- I think that spelling should be included
- I noticed that handwriting wasn't listed.If alls well please I am certain that handwriting should be wriiten on the list.Mostly because handwriting is an excellent study and it can improve your writing abilities.Thank-you for your time.
- computer science
- no
- Computer Science
- Computer Science
- Social Studies is the only subject that we have for a SMART Board. All of the subjects could benefit from them during certain lessons.
- Spanish
- art
- art
- NO!
- No.
- Computer technology
- i do not enjoy learning on the smart board
- no
- no
- NO
- t\r\nh\r\nne
- NO!
- No
- no
- tis all kinda the same as using a normal chalkboard....
- Computer Science\r\nCPT
- computer science. CPT.
- no
- Computer science
- Psychology
- Psychology classes, sex education class
- Phychology.
- Psychology.
- Psychology\r\nVisual Arts\r\nComputer Science
- Psychology
- There are no other subjects.
- Lunch Break
- Nope, Biology and Chemistry have been the biggest ones though.
- Law A 30\r\nPsychology A 30
- Cpt
- Everything but gym social studies and french
- none
- no
- no
- none
- none\r\n
- native studies
- bellwork
- no
- No you got them all!
- None.
- No

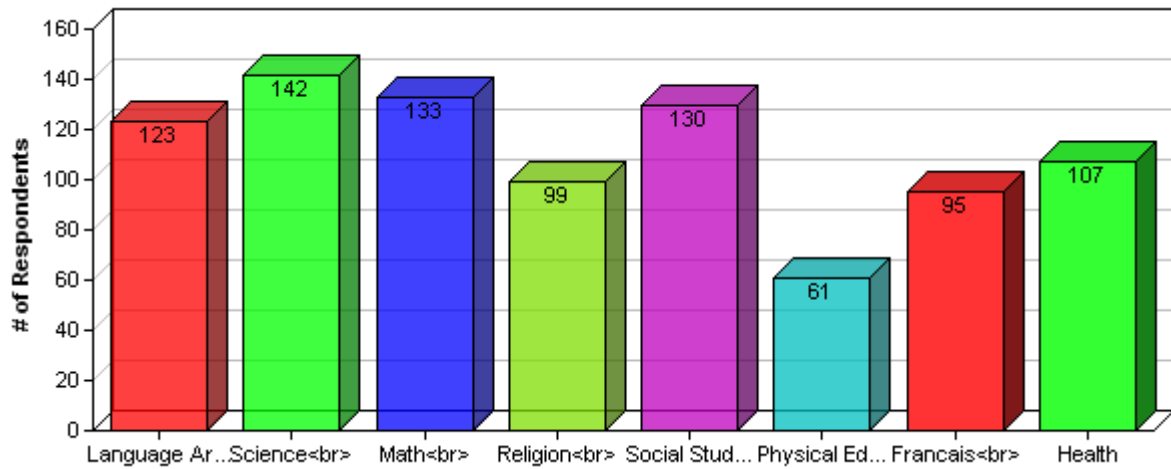

Question 12: Continued

-
- I've only experienced a SMART board in my Biology 30 class
- Arts Education
- no
- not really....
- we used the smart board for everything!!! ya u wish u were as cool as
rhyscurrieckickenrice.blogspot.com
- Nope.
- Spelling
- i dont think there is any more that i know of that would help me!
- No there are no other subjects.
- No
- CPT
- Computer Sciences\r\n
- Biology
- nope
- none
- no
- career education and music
- Music, and Drama
- none
- Math and Health.
- Psychology

Question 13:

Please check ALL subject areas that you would like to have more SMART Board lessons created to help you learn better.

1. Language Arts	2. Science	3. Math	4. Religion	5. Social Studies	6. Physical Education	7. Francais	8. Health	Mean	Std Dev
123 13.8%	142 16%	133 14.9%	99 11.1%	130 14.6%	61 6.9%	95 10.7%	107 12%	0	0

Question 14:

Are there other subject areas that are not included in the list above that ;you would like to have more SMART Board lessons created to help you learn better? Please List:

- All respondents
 - psychology
 - MME> PAEZ
 - .
 - gym
 - no

 - Spanish.
 - Spanish\r\nHistory
 - Spanish\r\nHistory\r\nScience
 - Because these classes do not have the smart board in them and they are a little hard to learn from little maps and books.
 - I would like to have a smart board for social studies and health because we use the smart board for everything else.
 - I would like to use the smart board for social studies and health because we need to learn everything.
 - I would want a SMART Board for Social Studies and Health.
 - Yes. Smart board is very good for students to learn and studies.
 - no.
 - no.
 - because we don`t have one on that class
 - because the teachers that we have for those subjects don`t own smart boreds.
 - i don`t know
 - I think we should learn about Health and Social studies more so we could do it on the smart board instead of a map
 - Yes. Smartboard make me understand and remember easy if it have smartboard in social studies and health.
 - games
 - art
 - do you think the smart board is smart.
 - gym
 - yes i feel board sometimes.
 - showing new sites
 - art
 - social
 - games are very fun when played on smart board
 - there is none
 - none,
 - no
 - spelling

Question 14: Continued

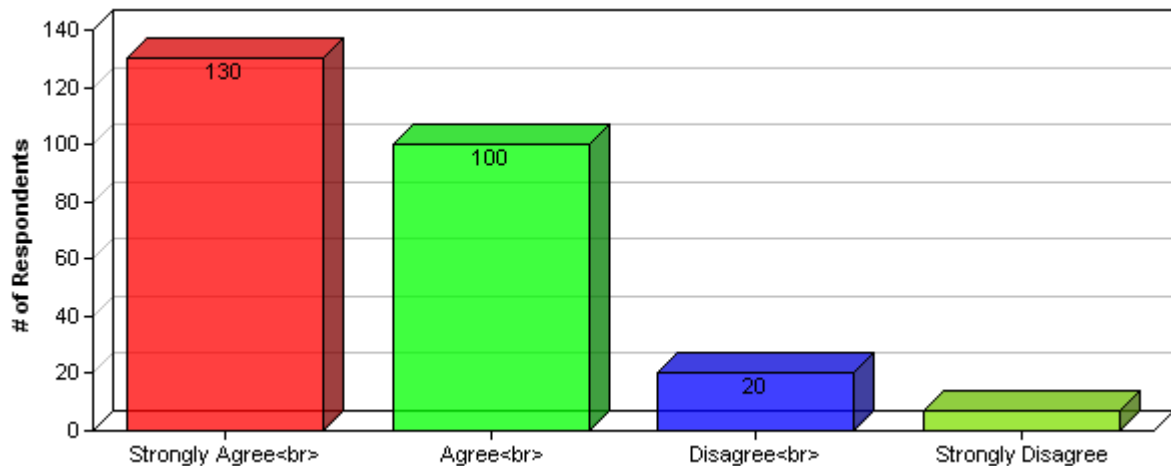

-
- Well I really think that spelling lessons should be on because it can improve on things that you dont really understand.
- Well maybe I suggest I would love to study other languages on the SMART board.
- no
- Not really
- Spanish
- NO!
- No.
- N/A
- i do not enjoy learning on the smart board
- good
- no
- NO
- g
- NO!
- No
- no
- I said no
- computer science
- Psychology
- Art
- No.
- Lunch Break\r\nThat`s it.

Technology Skills and Understandings

Question 15:

I enjoy using the SMART Board when doing presentations to the class.

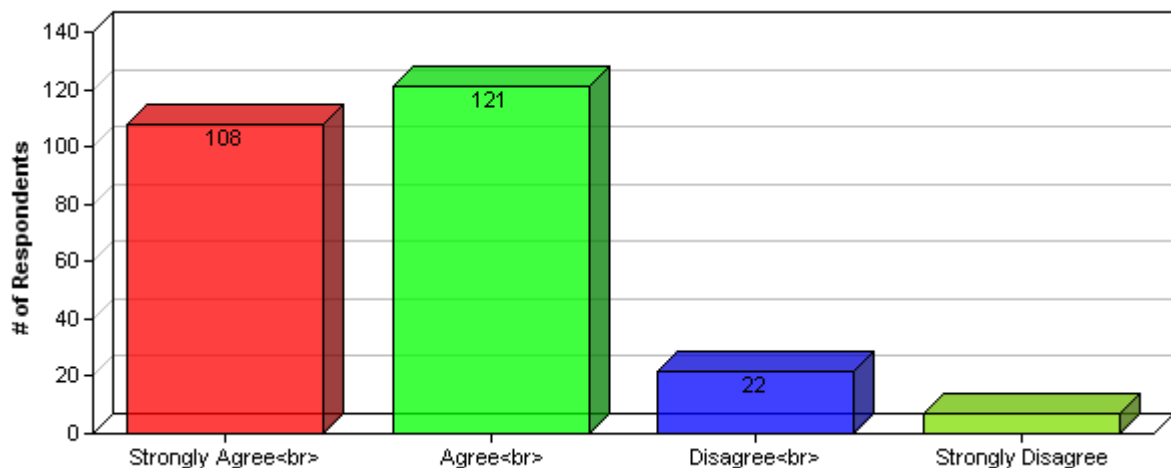

1. Strongly Agree	2. Agree	3. Disagree	4. Strongly Disagree	Mean	Std Dev
130 50.6%	100 38.9%	20 7.8%	7 2.7%	1.6	0.75

Question 16:

I can use a variety of technologies to help me present information to the class such as Photostory, PowerPoint, SMART Notebook, ComicLife and other presentation tools.

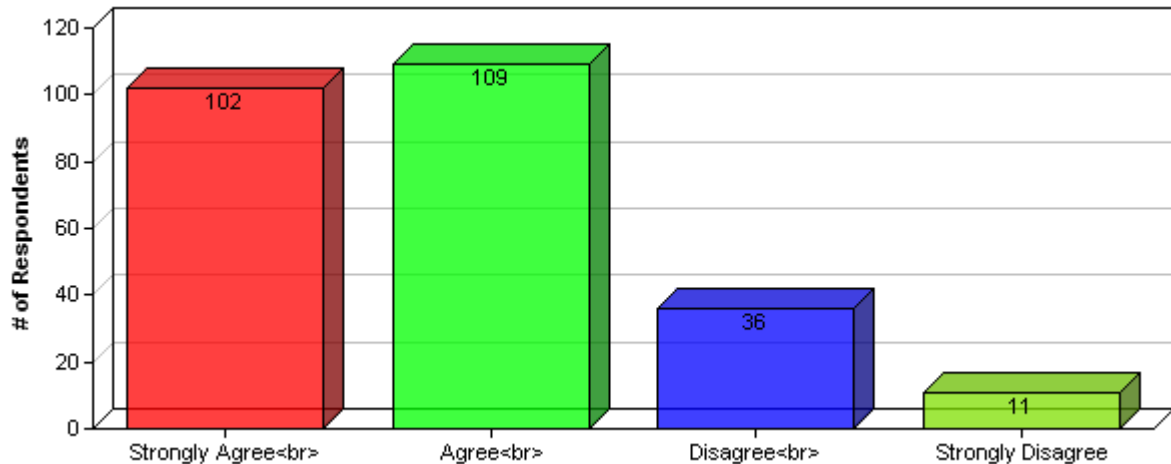

1. Strongly Agree	2. Agree	3. Disagree	4. Strongly Disagree	Mean	Std Dev
108 41.9%	121 46.9%	22 8.5%	7 2.7%	1.7	0.73

Question 17:

I have become more comfortable with using a variety of technologies to help me learn and understand better.

1. Strongly Agree	2. Agree	3. Disagree	4. Strongly Disagree	Mean	Std Dev
102 39.5%	109 42.2%	36 14%	11 4.3%	1.8	0.82

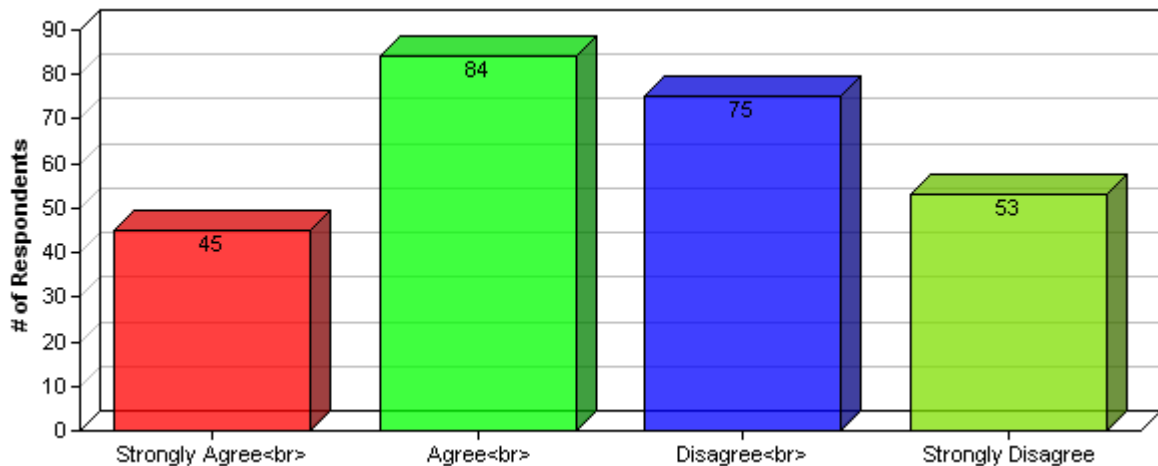

Communication

Question 18:

I like to go discuss and share what we are learning on the SMART Board with my family at home.

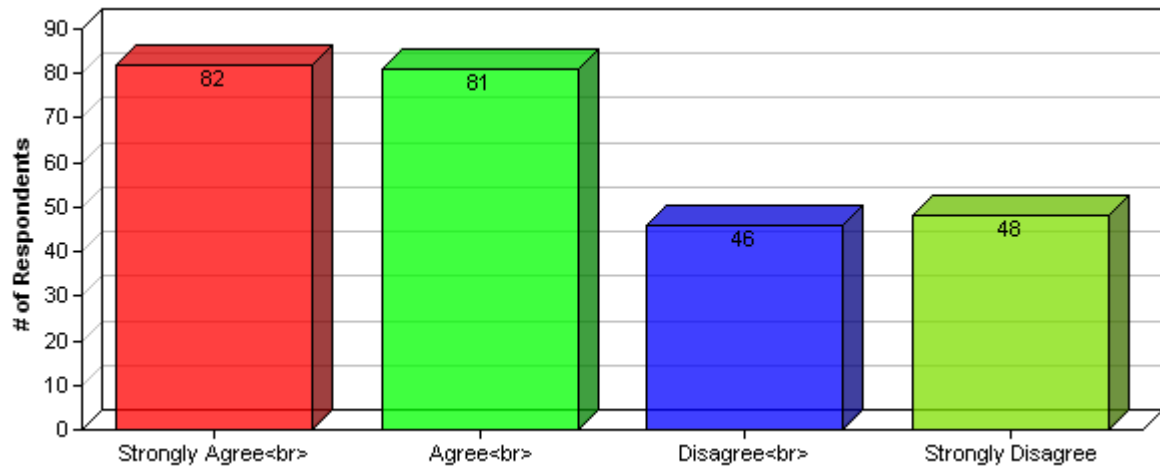

1. Strongly Agree	2. Agree	3. Disagree	4. Strongly Disagree	Mean	Std Dev
45 17.5%	84 32.7%	75 29.2%	53 20.6%	2.5	1.01

Question 19:

I have found the class blog or wiki useful to keep me connected with lessons or projects in our classroom.

1. Strongly Agree	2. Agree	3. Disagree	4. Strongly Disagree	Mean	Std Dev
82 31.9%	81 31.5%	46 17.9%	48 18.7%	2.2	1.09

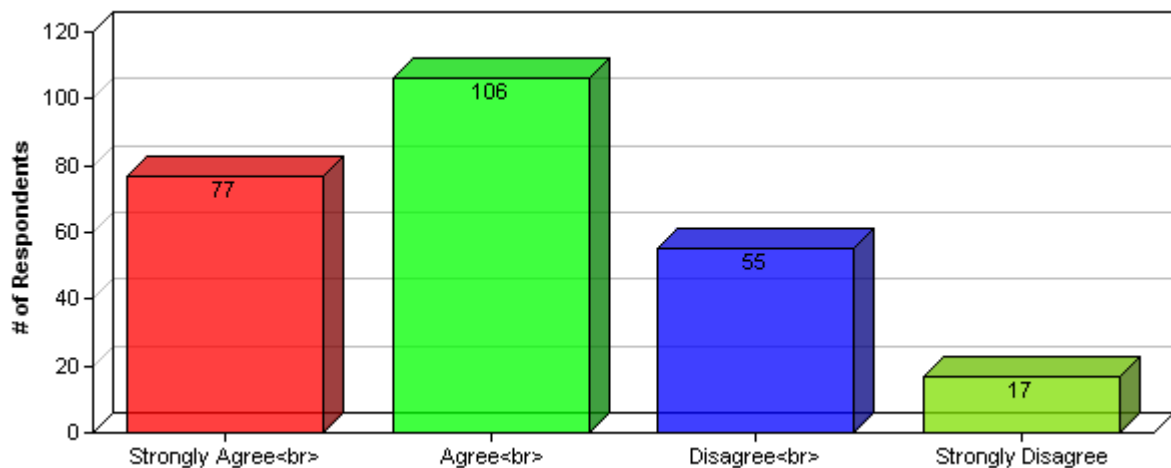

Global Citizenship

Question 20:

I am interested in communicating and learning with students from other countries.

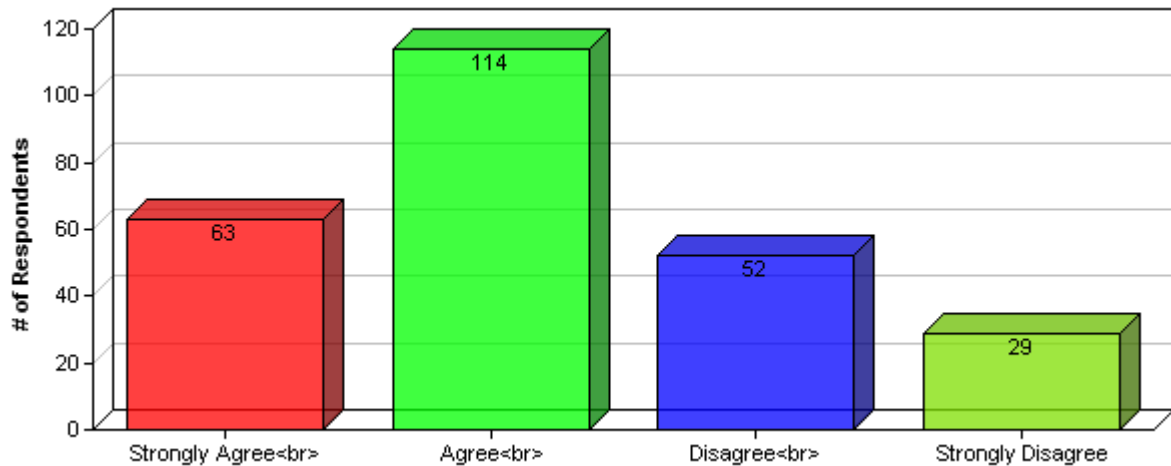

1. Strongly Agree	2. Agree	3. Disagree	4. Strongly Disagree	Mean	Std Dev
77 30.2%	106 41.6%	55 21.6%	17 6.7%	2	0.89

Question 21:

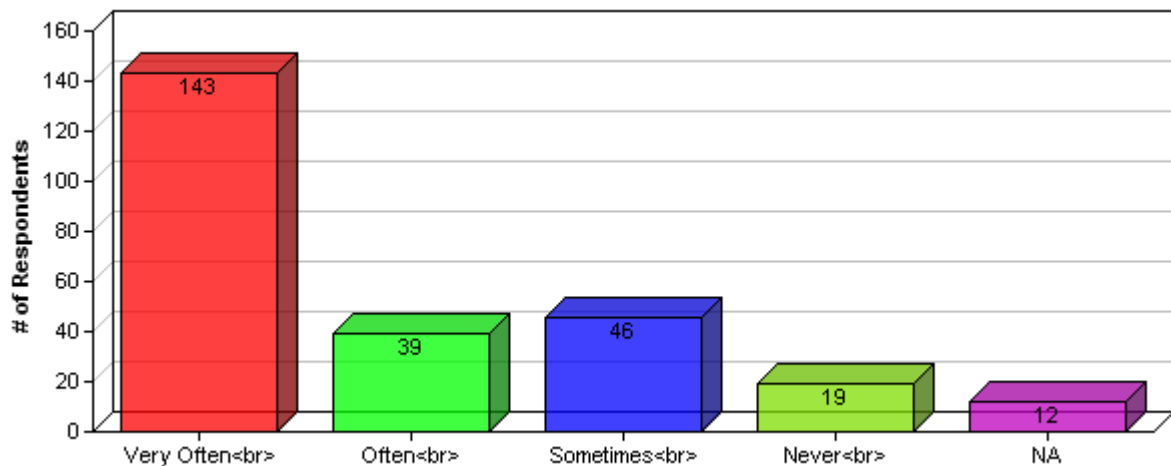

Projects that would require me to publish my work to the internet for others would change my approach to the project.

1. Strongly Agree	2. Agree	3. Disagree	4. Strongly Disagree	Mean	Std Dev
63 24.4%	114 44.2%	52 20.2%	29 11.2%	2.2	0.93

**Question 22:**

I use social networking tools at home such as Facebook, My Space, or MSN to communicate with my friends.

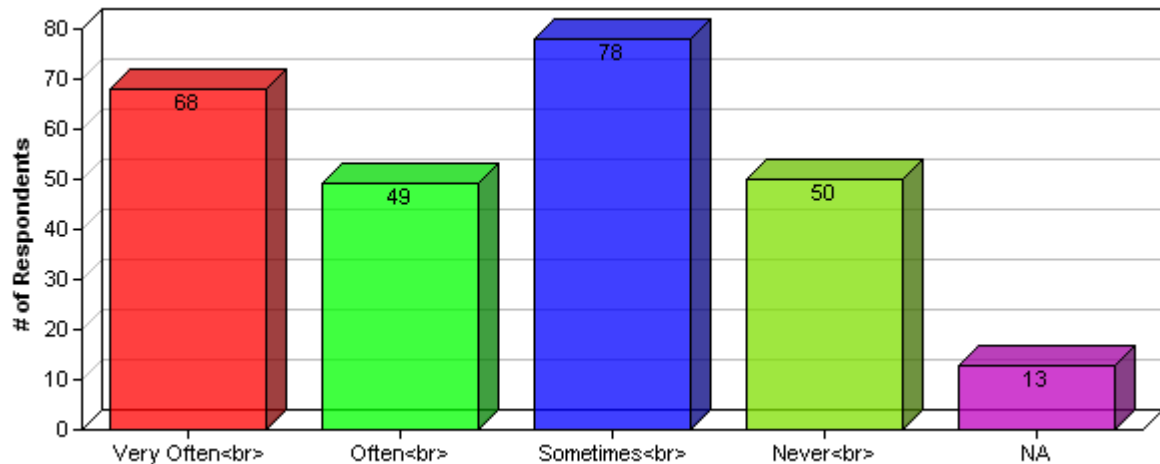

1. Very Often	2. Often	3. Sometimes	4. Never	5. NA	Mean	Std Dev
143 55.2%	39 15.1%	46 17.8%	19 7.3%	12 4.6%	1.9	1.2

Question 23:

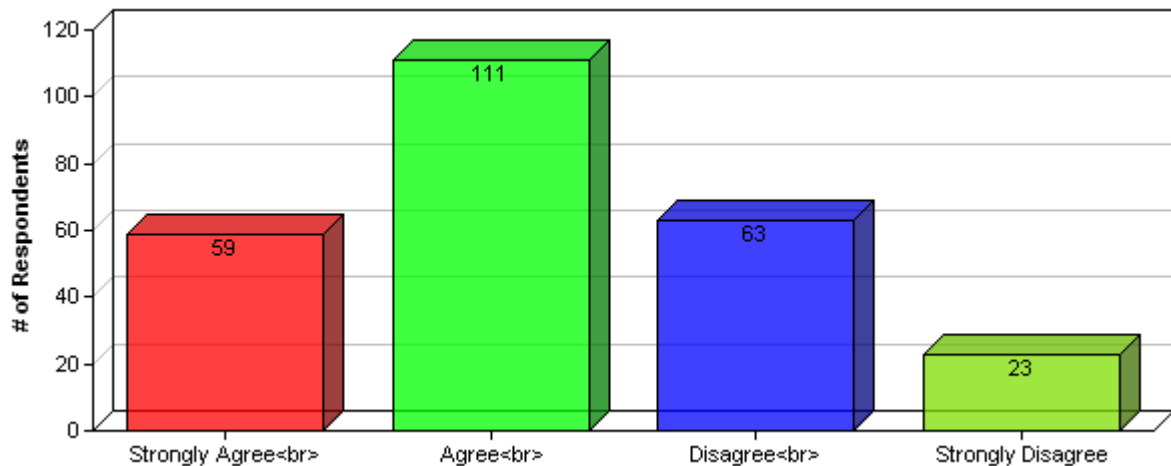

I have used tools like blogs, wikis, Facebook, or MySpace to learn about something I am interested in with people who have the same interests as I do.

1. Very Often	2. Often	3. Sometimes	4. Never	5. NA	Mean	Std Dev
68 26.4%	49 19%	78 30.2%	50 19.4%	13 5%	2.6	1.21

**Question 24:**

I think it is important for me to develop a portfolio of work on the internet for my future job opportunities.

1. Strongly Agree	2. Agree	3. Disagree	4. Strongly Disagree	Mean	Std Dev
59 23%	111 43.4%	63 24.6%	23 9%	2.2	0.89

Open-Ended Questions

Question 25:

Please share any examples of SMART Board lessons that you found very useful in helping you to be a better learner.

- All respondents
 - Using the SMART board to display visual aids such as pictures or videos to help me remember things. Connecting a picture or video to an idea makes schooling more effective.
 - n/a
 - none
 - mhm
 - mme paez`s class..
 - gym helps with dodgeball
 - Spanish interactive games.
 - History lessons
 - interactive activities
 - Moving things around on the board for labeling maps. I liked the mini quizzes.
 - they teach me read..i read real good
 - visual, powerpoint, internet access, games
 - INTERACTIVE GAMES, HIGHLIGHTING
 - playing games in spanish
 - In math we can share our thoughts with our teachers personally.
 - picture quality captured my brain
 - spanish class. the dragable games and stuff to help us learn
 - Spanish class! learning verbs
 - Dragging and matching. Things that help you learn by interacting with the lesson.
 - In spanish class, we use the smart board to play lots of games and activities of things we have learned.
 - In spanish class, I found it more fun to participate.
 - Helped with having images to better understand the meanings in spanish class
 - Easier access to videos, and internet sites that are useful to our learning.
 - I think math is more useful
 - moving stuff and pens
 - in french it helped me because im horrible at it...
 - One of my examples is it helps are class learn better.
 - All the subject I lean on the smart board are very useful.
 - I found Language Arts, Math and Francais.
 - I found L,arts math.
 - It helps us learn better.
 - Science and French.
 - i can learn better because i can have fun and learn
 - I found it very useful in math.
 - Smart board can help me see the pictures and the words.\r\nI can do a lots of things on Smart board. It`s make me understand things.
 - verb lessons
 - verb lessons.
 - reading, math,
 - lots of things really.... but, to tell the truth I like making posters or writing stuff better. (without technology)
 - The smart board helps me in SCIENCE to be a better learner.
 - it`s so easy,fun,and help me alot in learning
 - I really like the smartboard for science

Question 25: Continued

- For Science insted of looking at the textbook pictures when we can't understand them our teacher loads up some pictures on the smart board
- Smartboard make me understand because it's have a word, picture. And sometimes it's have a video to make me more understand.
- I really liked when we did the one motion spider.
- we learnd about fish for a drawing contest!!!!\r\n
- Some of the games like uncross the lines. Using the smart response for math quizzes.
- I really like it when we play fun games
- i dont think so.
- math because we somtimes use it.
- new web cites
- smart notebook
- math
- dont know
- ABout fish
- i love playing games
- when we do tests with the remote things.
- There awsome in class.
- in math
- when we went on a website and learned about fish and there natural habitat
- can I have more games
- Well in science,my class room is studying rocks and minerals.As a student I quite enjoy learning about rocks.Minerals actually are called gold and copper.Sometimes.I like to research about my problems in science(And other ones too)the answers help me uderstnd these things.Also the SMART board helped me uderstand more than ever!
- any videos that help tie in to the leason.
- the basketball game
- watching videos
- watching videos to learn in class.
- when doing presintaion i find it much easier and more interactive.
- Videos on topics
- It is very helpfull how fast you can witness information. It is also cool how you can watch video examples.
- jeopardy is good for smartboard. otherwise a regular projector screen and remote clicker would work just as well with less cost.
- jeopardy and hangman type games are a good learning tool, if your teacher can spell, ours can't which makes hangman stupidly hard.
- I found it very helpful how we can quickly watch vidoes and then document our discussions all on the same board.
- Clicker exams, my teacher can easily show us things on the internet.
- Copying down notes in any subject. More neat and easy to read.
- french
- Taking quizzes with clickers
- math
- when we have belwork in the morning and the last question is usually something funny or fun.
- math demonstrations, overall interactive learnig throughout the day.
- I found it easy in powerpoints.
- when learning what to do on a new computer program.
- world geography
- It was easier to understand when it was on a big screen that everyone could see, and our teacher could circle important things, or draw on it. (we do our work on computers).

Question 25: Continued

- When writing done notes it's easier for every body to see, and the geological assignments.
- About doing the projects that we would have to show. The smart Bord helped me do that easier.
- The only helpful option on the smart board is reviewing for tests with the clickers. I do not like taking the tests with the smart board i only like reviewing because everyone cheats on the tests because we are all in the same room right beside each other.
- Time travel project
- the travel agency project
- Time travel agency project
- Time travel agency
- hangman in social\r\ndicesting a frog in bio
- a
- NA
- games to learn french vocabulary
- n/a
- The hangman game
- none.... what?
- None
- None
- none
- Ooo, they werent too hot.
- none
- When you can put examples of youtube videos
- Time Travel agency project. easily accesable information without having to mess around with a mouse or a monitor.
- Biology class - My teacher used the smart board to make voice over lessons that were very helpful when studying for exams.
- We have played a geography game in Social Studies on the smart board that helped me to remember different places in the world.
- SMART Notebook Assignments
- The one with geography where you point to the places.
- - Learning about DNA, and Cellular Respiration in Biology\r\n- Any time I needed to know a ton of terms I believe the SMART boards helped me to put the images into perspective.
- Lessons I have found to be useful are the ones where i have to go up and use the smart board. Also Lessons where my teacher is able to explain things in more detail using the board, and having many examples, and saving time. the effect the board have with applications keeps the teacher and students interested. The smart Board is easy to see and easy to use.
- The Beta... its super awesome.
- Chemistry 30 course, where my teacher was able to do the work easily alongside the students. As well as my Biology 30 course, where my teacher made a variety of lessons for the students to access from home.
- pretty much nothing because i think its a waste of money and gets everybody when learning off track and get into random conversations.
- learning ways to solve math.
- Math when we threw beanbags at JJustin Bieber
- none really like i said they are all pretty much the same to me just because they are on a screen doesn't make them any easier for me. no offence intended.
- math and looking at pictures and watching videos about science
- math lessons

Question 25: Continued

- i like the smart board for math. It help when you can get shown how to do difrent thing in math.
- ;
- none
- When learning math li like having the examples on the smart board
- When we are doing math work. Seeing what we are supposed to do helps.
- its much symple
- bill nye videos
- Ancient Rome, Ancient Greece
- In bioogy learning how things work and come together was really good to learn on a smart board. Also labelling diagrams on the smartboard.
- DNA Replication, Cell Structure, Genetic Crossovers.
- taking notes off powerpoint and stuff presented from the smartboard make things easier to focus on.
- In Biology 30 when learning about certain processes of and in the body help to emphasize the important elements and show the process more thoroughly.
- In math, learning is going quickly because of the SMART Board. Especially when the Math requires diagrams, the SMART Board had many items that helped the learning pace go faster.
- In DOL we found lessons on punctuation
- in D.o.I it helps me learn the punctuation from a program on the smart board instead of having to go to other computers to look at the program.
- we have done many things on the smart board, including learning a lot of punctuation lessons, and some mathematics
- human rights book talk presentation
- for me smartboard is very useful on our math class because it is easier for our teacher to discuss and to find thing that relates to our topic.
- It helps me by doing power point and watching many educational vidoe from youtube.
- everything!
- Well in Scence we were learning about the Iceland volanco that erupted inssted of our teacher taking about it. He showed us a video on it eruppting aqnd the damage it`s doing on the CBC website another really good lesson was when we were learning about the Holocaust wewatched a show called "Love,Hate and Propaganda which helped to understand more about the Nazi`s.
- Well, all the science and SOCIAL videos were pretty cool, but not a lot else.
- its more hands on work
- e.l.a.-making proper sentences
- Math geometry, and D.O.L., and when we used the smart board for the food web in science realy helped me.
- Spelling, it helps me to see the word on the SMART Board which is very helpful
- math when we did protractors! \nE.L.A when we do corecting sentences!
- when you perform your powerpoint to the class by using smartboard
- I really liked how we used the interactive protractor for math! It was hard at first but thats what kept my interest!
- I think doing the math on the smart board with the tools has made it easier to understand, because then my teacher can show us how to do things with the tools we use.
- power point and videos
- diagrams of things I need to know are good on the smart board.
- In our class when we studied for a spelling test and you had to spel the words correctly or you got it wrong I found it really fun.
- Math on the smart board is very usefull.

Question 25: Continued

- One lesson is when we used the smart board for spelling, it was sort of like a game of hangman.
- labeling parts of a microscope.
- I found when we learned about Microscopes on the SMART board that the activity we did was very useful and helped me understand the microscope better. Also the labelling and diagrams help me understand.
- In social studies, learning about the world.
- math, ELA, and especially DOL
- L.A, and D.O.L
- sure
- greek myths, global citizenship
- When learning about integers it was very useful to see how to multiply and divide by showing the dots being taken away and adding up.
- no textbooks! saves paper! more things to learn from!
- It catches my attention.
- My bilolgy teacher's wikispace and smart powerpoints are really helpfull to make sure everyone has a grasp on the concept and to eusure that all assignments are completed on time and the right way.
- I think that any unit where there is a picture or any kind of diagram the smart board really assists in learning. Due to the fact that the teacher can openly point out each individual part of the picture
- bellworks, notes

Question 26:

Please share how you feel the SMART Board has changed your classroom or learning.

- All respondents
 - I don't think it has really changed my learning. A lot of the time it doesn't work or my teacher doesn't know how to use it.
 - When there is a video or power point presentation no more time is wasted by bringing in a data projector or a TV and no more time is wasted on hooking things up.
 - more interactive
 - it hasn't
 - it really hasn't
 - yep
 - mme paez teaches more gooder.
 - its the good stuff
 - more fun
 - Easier to take notes.
 - It makes lessons more interactive
 - students are more attentive and more willing to read aloud in class
 - It is a lot easier to read notes and to know what is important when the teacher highlights things.
 - i smarter now, i happy i could talk out loud and learn good
 - it's way more fun!
 - This survey is not an accurate representation of how the Smart board is used in our classroom. My answers may be somewhat negative mainly for the reason that the students don't get to use the smart board to all of its capabilities and the teacher does not use it for interactive and creative ways to learn the subject matter. Right now, I see the Smart board as a projector and a white board combined in one and our school division could have saved a lot of money. Maybe if there was a better training for teachers and they would learn the different aspects and capabilities would the Smart board enhance learning.
 - didnt ask.
 - i learn when i interact.
 - better focus and more fun
 - the class is more attentive
 - Easier
 - You learn more cause you get to interact with what is going on
 - It has made our classroom awesome and way more entertaining.
 - it keeps the kids attentive!
 - More interactive and more interesting.
 - In spanish class, it really gets my attention and we do lots of activities on the smart board to learn new things.
 - It has changed the classroom learning because more people participate.
 - Helped to be better with technology and participate more with smart board
 - I think that SMART Board Technology needs to be more reliable and needs to have an easier user-interface. Otherwise, I think that the SMART Board has greatly helped my Spanish class, but was a hinderance in learning with Math. It should only be used for geometry lessons in Math, and should not completely replace reliable textbooks for lessons and assignments.
 - I think because there is lots of things you can do
 - it makes it a lot easier
 - it hasn't...
 - It helped us learn a lot better.
 - Next year i'm very sad that I won't have a smart board in my class because my teacher is the only teacher that has one in his room.

Question 26: Continued

- Smart Board helped me to learn better at other subjects.
- smart boards are really fun and I would like to have other classrooms to have smart boards.
- It changed our classroom because it teached us more.
- I feel really happy that we have a SMART Board in our classroom.
- next i will be sad because in my next class the doesn't have a smartboard
- I feel very confident using the smart board
- i like it a lot
- i like to learn science on the smartboard
- it helps me understant better. i liked more stuff then \r\nbooks.
- It has changed my way of learning because we use the smart bored insted of listening or writing.
- I feel so happy that we have a smartboard in our class
- In schience it helps me to understand stuff
- It has changed the fact that alot of people listen alot more when the smart board is turned on
- It's will be sad. Because Smartboard is helping me a lots. I'll miss smartboard and i hope i can have smartboard in grade 7 and 8.
- it has changed school and made school relly fun
- it made learning more fun!!
- It has made our classroom more fun.
- It has changed the classromm so it can be more fun
- it is way more fun.
- good it has changed me in math
- more fun
- very happy everyone is
- it changed some things not alot.
- it is easy to understand
- it hasint
- awesome
- i think i listen much better now
- i hasn't changed me.
- awsome
- it feel good having the smart board
- the smart board makes lessons way more fun
- I like the it
- It has changed alot of things in my life mostly on learning.
- On the SMART board my teacher loves to show us new things.Later on I would go on the sites myself.After my daily studies and reading assessments.Please forgive me.I don't spell many words correctly.Especially "assessment"
- Yes it has. I pay more attention when the smartboard is being used.
- i love learning now!, its so much fun i cant wait to come to the class room!
- i am used to it so it has just made class go by faster
- made it harder to learn and wastes time because it takes too long to start up and use
- it wastes time to set up and such.
- it can be very frustrating because it takes a while to load up and it can waste half the class (which isn't such a bad thing). it would be a lot better if it could work faster.
- it can be very frustrating because it takes a while to load up and it can waste half the class (which isn't such a bad thing). it would be a lot better if it could work faster.
- Lots more videos in class. So we can see whats acctually going on
- more attentive
- it makes everything even more boring
- The classroom feels a lot more revolutionary.

Question 26: Continued

- i cant take notes as easily cause my teacher cant write very well on the board and his body is in the way of the projector. also, if he has typed the notes previously he dosent give us enough time to take down the information.\r\nwhen he saves things as smartboard files we cant access them at home cause no one is silly enough to purchase smart board software.
- notes are harder to take, because my teacher does not write well and does not callibrate the board when he should. he does not know how to use it which makes the class harder to do, he only gives us notes on smartboard files we can not access anywhere else, smart boards are a good idea but the teachers need to be taught how to use them. our teacher does not know anything about it.
- It has shrunk barriers in the classroom and allowed use to do more and learn more in a shorter period of time.
- Better internet examples.
- I don't think it has, it just makes things easier and the class seems to move along a little faster without a teacher hand writing the notes onto the board.
- It helped us focus a lot and the teacher had easy access to whatever they want.
- It has and it hasn't changed my classroom. A lot of the kids in my class grew up around technology, so it isn't that great of an amazement. Though, it is still helpful. It just feels like we've already grown used to it before it was introduced to us. The SMART Board does make it easier and more consistant for explaining things, especially when it comes to notes on powerpoints or notebooks.
- nouthing
- It has helped me understand things with visual.
- Its become more fun, and i feel like i want to do more and more work on it.
- it has changed the attention level of the classroom, and helps people enjoy the lessons more.
- N/A
- well social seems more fun because it is new and different.\r\n
- by using the smart board you can highlight or circle key ideas and points, making it easier to understand and remember things.
- THis makes me more confusing
- I like learning like this, but I don't think its that big of a deal either.
- It shows us what were suppose to do and gives us a more of an understanding.
- I feel that we don't really need a smart Bord in every classrooms in the school. I like the smart Bord but not that much.
- I think using technology has made learning more complicated then it has to be, if we used technology once a week it would be fine but i am having a lot of trouble in my social class using the technology every day even though we were not told or taught about it or how to use it.
- Its easier to follow
- It made it more fun?
- it made it easier to do stuff
- it has changed the way we learn because it allows us to be more interactive with lessons
- It helps have the info right in front of us
- m
- NA
- I don't like the SMART Board being in the classroom. My teacher dose not really teach himself anymore. All he does it use the SMART board. Its hard to learn now that the SMART board is in the classroom.
- n/a

Question 26: Continued

- I don't hate the SMART Board but I don't love it either. It's just like having a chalkboard to me. It's something for the teacher to write on and show us things on. You can do the same thing with a white board and a projector
- it hasn't changed the setting of the classroom, we rarely use it the teachers use it
- it hasn't... it's just slightly cooler than a chalkboard... same thing though...
- The smart board is a different way to learn although I can become bored very easily unless the class itself gets me interested.
- it hasn't
- I don't like it.
- I think it's just a pretty face, and for the most part distracts from the actual learning process. People get all caught up in the hype of "using the smart board" that it diminishes the importance of the information that is to be learned.
- it has not changed it in any way whatsoever
- makes it much more fun
- More hands on, able to watch the teacher teach and show examples easily.
- Keeps me interested, more examples
- The visual learning experience greatly helped to absorb the information provided
- I think the smart board has made it easier for the teacher to show presentations and make the class more interactive.
- Not really.
- Just make it a little more interactive
- ;D
- It has certainly made learning more fun and interactive. With the growth of technology, why not get more involved with it and integrate it into your learning.
- I feel the smart Board has made the classroom a bit more fun, adding in sounds and easy to click on links keep the class involved and save time. I find notes are easier to read and copy, I also feel this beneficial to the teachers who use notes to give information.
- Don't tell Sage, he'll nerf it.
- It is much handier than past technology used, allowing more time for questions, or to advance in my studies.
- it gives me something to look at.
- It is fun and helpful
- it has not changed the classroom it probably changed the students' interests in doing work because everyone just fools around.
- it has changed the way that I learn because it is more interactive and is more fun so I learn better.
- I do not know
- I don't think it has changed it at all because it's exactly the same the only thing different is I don't have to smell nasty marker smell all day long.
- smart board can do a lot of things that a whiteboard can't do...it's like a computer and a whiteboard at the same time.
- people pay more attention
- I think that it has helped us to do work with the smart board and we finish them.
- I
- none
- I think everyone in our class pays more attention because we are all more interested with the smart board because of all the interesting things you can do on it
- It improved.
- it didn't change the way we learn, it all depends on teachers.
- it is easier cause the teacher doesn't have to write notes on the whiteboard.
- It became more interactive
- I think that kids who have experienced the smart board learn to pay more attention during class and are more interested with what they are learning.

Question 26: Continued

- Gets students engaged in the material and holds students` attention better.
- more entertaining, its something different than what we are used of.
- It is a lot more interesting and I feel more involed in the lessons that are being taught.
- It is a good thing
- it helps me learn by showing me what to do
- It has made learning fun.
- the smart board has changed the learning in the classroom by making everyone`s day a little bit better
- it distracts me and the class
- it makes our lerning better and we can easily find articles that realate to the topic that we are doing.
- Eventhough I been here for 2 months in Canada in Ms. Stewie`s class ... It helps me learn more by using the smart board and it is really fun using it.
- everything!
- It has helped in many ways and I love having one!!!! :)
- It has occasionally caught my interest, and has kept me interested in many different things.
- not that much becues it is just a wihte bord but high tech
- you do more as a class its funner then listening
- better
- It intrests me more in learning when the smart board is on and I feel like I learn more.
- Its been more intresting and fun
- more fun to do lessons! \r\ngets us more focussed!\r\nnot boring!
- it makes me to learn easier
- It made learning faster and easier, it always kept our attention and we all wanted to use the SMART Board to answer questions.
- I don`t really think the samrt board has changed the classroom very much because we sometimes only have it on once a week, and last year we used it for every subject.
- more interactive
- more chances to get infront of the class and do hands on work.
- It makes the students pay better attention.
- i think that it has changed my learning because i learn better by doing and not by listening.
- I think the smart board has changed my class room experience because ve got to do fun things and play games.
- it has become more interactive and you can see math eqations done step by step without making a mess of the equation.
- It makes me pay attention more because I am more intrigued with the presentation and it is more visually attractive.
- How I feel about the SMART Board Being in our class room is very fun and cool
- it shows what we`re suppose to write down
- it has made me understand more clear
- sure
- we are so happy to have Smart board and it had helped us to better understand our learnings..
- By actually showing us things instead of just having them explained to us. Such as youtube videos of certain dances and lessons.
- I feel Good!!! :)
- The SMART Board is fun and it`s awesome!
- It is more fun.
- Overall, the SMART Board has simply created a different way to learning. It has given us a different approach to taking down notes, rather than using the dreaded overhead.

Question 26: Continued

- The smart board is easy to see and read off. I liked presenting my powerpoint to the class on it. Though I don't always get to use the smart board, it keeps me focused on the task at hand because it presents information in a nice manner that everyone can understand.
- I think that it has made me a much more attentive learner
- Makes the class go faster

Question 27:

Please share any lessons or activities that you would like to do more of with the SMART Board in your classroom.

- All respondents
 - more interactive quizzes used for practice to prepare for exams. multiple choice quizzes that can be taken and re-taken from the comfort of your desk and display the results of the quiz with the answers you got wrong.
 - doodling
 - psychology
 - yes sir
 - touching the smart board.
 - dodgeball
 - language arts
 - Psychology
 - Everything
 - i like to do the pictus on the smat boad
 - More access to websites
 - All or any more uses with the Smart board would enhance the classroom.
 - SEE THE WORLD
 - playing games
 - Every lesson would be fine!
 - colorful
 - Everything
 - More interactive lessons.
 - Activites that include groups
 - I think there should be more activites for studies with the SMART Board.
 - I would like to do more math on the smart board
 - social studies health religion\r\n
 - activity`s that allow you to touch
 - i to do more health and social.
 - I would like all of the lessons or activites.
 - I would like all the activities and other stuff
 - I od not have anything to share because we have everything we need in the classroom smartboard.
 - Religion and Math.
 - Science\r\n
 - I would like to have social studies, health and religion by using smart board in the class
 - everything. i love learning and i don`t like missing school.
 - EVERYTHING! I LOVE LEARNING! :)
 - social studies
 - i hope we have more smart board in the next year. if my class don`t have it i will never going to schoollll
 - Health and Social studies because weve been watching videos about how bad smoking is for people so I think Health
 - I want health and social to have lessons and activities from smartboard.
 - games and fun power points.
 - webkinz
 - we use it for everything every day.
 - nothing
 - math
 - phys ed
 - power point.
 - math \r\n

Question 27: Continued

- science
- art
- math
- i would like to do more french
- i would like a description of gym on the smart board.
- olimpics
- math
- I would like to do more religion
- math
- And finally the SMART board can never be wrong. Mostly my school divides us into groups for math. For the students to be in their level. But I noticed one of the math groups use the SMART board. I'm hoping math can be more interesting and exciting. So I still disagree on all the class-rooms with SMART boards. I just strongly do.
- I like the smartboard for language arts class.
- the basketball game
- none.
- health and social studies would improve with the smart board
- watch videos
- Possibly more presentations?
- I like interactive learning games. I find them to be a great way for me and my friends to learn.
- Recreation day.
- Spanish.
- Anything that would get the class to interact with the lesson. Such as a game.
- games
- art
- N/A
- i'm unsure
- i would like to do more world geograohy
- N/A
- I would like to do nothing more with the smart Bord.
- I would not like to use the smart board everyday because it slows things down.
- Math
- more games
- I would like to do most of my projects and present them on the smart board
- e
- NA
- i'd like to use the smart board myself more often.
- n/a
- i do not care...
- absolutely none
- None because I dislike the smartboard and think it is a useless tool. Stop using it! It does not make things easier.
- i would like you to discontinue the smart board
- more power points.
- Interactive smart board activites
- I think it would be a good idea to allow the students to use the smart board more in presentations, and allow us to become more comfortable with the technology.
- I don't know...
- ;D
- More Science and Math for sure. Although it is not needed all the time, a SMART Board could be useful for certain components of English and History classes as well.

Question 27: Continued

- Have more presentations where students have to go up and answer a question with the smart board it's more memorable in front of a crowd and more rewarding. With the sound effects setting and general atmosphere of the class room when students are able to go up and touch the board it shouldn't be embarrassing if answered incorrectly. Students can make videos and present them on the Board which is always interesting. All students in a group can stand in front of the class and easily change the slide.
- Roger Clemens... Makes me happy.
- Interactive lessons where students have the opportunity to use the technology.
- I wouldn't like to do any because I'm more of the old fashion and like to just use white boards so I don't get off track.
- I would like to do more projects on it.
- ?
- Physical education
- ?
- e
- none
- French
- french
- ?
- Geography activities
- I would like to do math lessons on the smart board.
- None.
- study games or something
- nothing that I can think of at the moment, would I change.
- more videos
- I would like to learn more about grammar and things.\r\n
- we do most of our lessons on the smart board so I have no suggestions \r\n
- none
- educational games.
- Actually there is no more, but I really like to watch videos if possible if we have time hahahaha :)
- nothing!
- Well, I loved all the science/social videos because they were very educational. It was great overall, and was a wonderful tool to have in the classroom.
- spelling games
- everything\r\n
- I would like to do more math, science, and more E.L.A. on the smart board.
- math\r\nfun games\r\nscience experiments!
- games related to studying
- A few more math games would be nice, but I think the SMART Board is fine as it is!
- I think that I would like to use the smart board more for showing pictures, maps, diagrams, or interactive games to learn.
- Math lessons
- I think math because, math makes people not pay attention but when you use the SMART board it makes people want to learn because it's cool to watch.
- Nothing
- I would like to do more spelling and math on the smartboard especially the hangman like game.
- games.
- I think just having examples and activities on the board help out a lot.
- I would personally like to do more DOL because my teacher makes it a wack load of fun
- More D.O.L its so fun

Question 27: **Continued**

- Sure
- musics, arts blogging
- I would enjoy seeing math lessons, become SMART lessons.
- I would like to continue to view lessons on the smart board and complete some more interactive lessons on the technology
- we use it all the time, I enjoy it
- games about the subjects
